## Experience (Academic Project)

B-Pay - Contactless payment system

Digital payment system for blind people.

- Frontend : HTML/CSS, JS
- Backend : Java, MySql
- Platform : Android & IOT

Automated Food Ordering System (Mini Project)

The proposed system greatly simplifies the ordering process for both the customers and the restaurant. Our experience in developing digital restaurants and inter-restaurant navigation using smart phones shows the capabilities of wireless communication and smartphone technology in fulfilling and improving business management and service delivery
