EDUCATION

2022-2023

**INTERNSHIP (PACKAPEER
ACADEMY)**

Python django full stack developer
24 week program

2021-2022

INTERNSHIP (SCOPE INDIA)

Python django full stack developer
4 months

2020

ITI

Machine Maintenance Chemical plant
Govt iti chadhanathop, Kollam

SKILLS

Python	80%	Javascript	75%
Django	65%	Bootstrap	60%
C	65%	HTML	65%
C++	65%	CSS	60%
SQL	55%	OOPS	75%
Mongodb	55%	Numpy	55%
JAVA	55%		

LANGUAGES

English Malayalam Tamil

SUDHEESH S

PYTHON DEVELOPER

PROFILE

Looking for an entry-level position in PYTHON FULLSTACK domain where I can utilize my extensive knowledge I gained through self-learning campaign at BROTOTYPE . I proved myself that I was able to learn a lot of new things in my past 6 month experience . I do have a decent level of coding skills and communication skills that I have developed for my career as an IT professional.

EXPERIENCE

WEB-DEVELOPMENT INTERN

- Basic analysis of patterns and array programs were solved using C.
- OOPs Concepts
- Personal portfolio
- HTML/CSS,BOOTSTRAP
- Python Django
- Web designing
- Database Handling
- Developed an E-Commerce Website with these prior knowledge
- Basic Understanding of Data Structures and Algorithms

PROJECT

ICREAM E-COMMERCE WEBSITE

<https://icream.cloud/>

- Implemented all the necessary e-commerce functionalities like product listing, cart, orders, etc.
- Additional features include:-
- Image Cropping & Product image zoom
 - Offers and Coupons
 - Sales Reports
 - Chart & Graph reports on Admin side
 - Product, user & category Management on Admin side
 - custom admin panel
 - otp validation
 - Payment gateways integrated: Razorpay.

ADDITIONAL SKILLS AND WORKS

PYTHON

- created a game using **pygame** python library
- created one **custom chat gtp** using chat gtp api key and python openai library
- created a **custom chat bot** using **speech_recognition** and **pyttsx3** python library with help of **Mongodb** database
- I have experience solving competitive coding platform problems using various data structures such as arrays, linked lists, stacks, queues, trees, and graphs.
- I possess a strong understanding of Object-Oriented Programming (OOP) concepts in different programming languages such as Java, Python, and C++. My proficiency in OOP principles includes encapsulation, inheritance, abstraction, and polymorphism, and I can apply them effectively in various coding scenarios
