

GOPIKA M S

As a passionate and dedicated Python full-stack developer, my career objective is to embark on a fulfilling journey in the world of web development. With a strong foundation in Python programming, front-end, and back-end technologies gained through my education and projects, I am eager to apply my skills in a professional setting. I am committed to continuous learning and growth, staying updated with emerging technologies and best practices, while delivering high-quality and user-friendly solutions. My aim is to become a proficient full-stack developer and make a meaningful impact in the field
