## PROFILE SNAPSHOT

As a freelancer with 2.8 years of experience, I have worked with a variety of companies, providing a range of services such as Web, API, App Development. I have a strong track record of delivering high-quality work on time and within budget. I am highly adaptable and thrive in dynamic environments, making me an ideal fit for freelance projects. I am confident in my ability to bring value to any organization and am excited to take on new challenges.

## FUNCTIONAL EXPERTISE

- Python, Javascript (Basics)
- Django, Django Rest Framework (REST Api), Channels (Socket)
- Aws (Basics)
- Nginx (Medium)
- Celery, MYSQL (Basic), Postgres (Basic)
- AWS (S3, EC2, Lightsail, etc..)

## NOTABLE ACHIEVEMENTS

- I have created an open-source middleware package for Django (Python) that monitors the visitor count and deployed it on PyPI.  
<https://pypi.org/project/django-viewers-counts-middleware>
