

# Muhammed Shameer VP

Python | Django | Flask | FastAPI

shameervp15@gmail.com

09605454262

Malappuram, Kerala

## Short Note About Me

Curiosity led technology enthusiast, looking forward to hit the vision to be working in the Artificial Intelligence field. Worked around in Python Web development (Django, Flask, Html, CSS, Javascript) and presently working in new technology - Winshuttle Evolve/Studio along with Python.

## Experience

### Engineer - Package Implementation L1

Evenion Technologies • Bangalore, Karnataka 11/2022 - 10/2023

1. Python third party services - Deep Learning Models - Document AI Clone, HuggingFace, Flask/FastAPI, Tensorflow, Pytorch, API Integrations.
2. Precisely (former Winshuttle) Automation Studio and Evolve
3. Flowize Webflow Automation Tool

## Education

### Bachelor of Computer Application

Manipal University-Jaipur - 2023 - 2026

### Level 6 EBMA (Business Management)

International Graduate School • Kochi, Kerala 2015 - 2018

## Skills

Python, Django, Flask, FastAPI

## Interests

Practice and learn in platforms such as Google's KickStart, Code chef, Top Coder, HackerRank, Newton School Competitions.

Learning Mathematics and Statistics Topics for further learning of AI/ML domain.

Being an astrophile, the wonders of universe always stood me curious of whereabouts of ours. Science topics excite me as always.

## Personal Projects

Student Worktable (03/2021 - 04/2021) - Python Django Web Application.

Html/CSS/JS projects (04/2021 - 04/2021) - Basic themes such as Parallax designed Solar system, survey forms, Landing Page.

Cowin API Integration (05/2021 - 05/2021) - Fetching free slots for vaccination.

Deep Learning LayoutLM (07/2023 - Present) - Working with layoutlm pretrained deep learning models.

Kaggle Prediction ML Projects (05/2021 - 07/2021) - ML projects for predicting outcomes and fine tuning pretrained models.
