WORK EXPERIENCE

Process Associate & Analyst

Visionet Systems Pvt Ltd

01/2022 - 08/2022

Coimbatore, TN

PERSONAL PROJECTS

GUI Based Stock Management & Control Center Using Python

- Inventory is a major asset that represents tied-up Capital, managing stock effectively therefore enables a business to free up capital. Efficient stock control requires understanding the mix of different kinds of stock and acknowledging the demands on that stock. This helps keep stock at a reasonable level, balancing the need for surplus supplies with the need to reduce tied-up capital.
