Objective

Dedicated and detail-oriented software developer in efficiently managing operations, implementing new processes and delivering high-quality solutions. Seeking a challenging role to leverage my technical skills and contribute to the development of mission-critical systems.

Work Experience

Senior Associate

Accenture Pvt Ltd, Chennai

Apr 2017 - Aug 2023

- Efficiently managed and contributed to the daily allocation of claims, submitted and ensured regular activity reports to management, reviewed the previous improvement, processed various types of claims and provided expertise in troubleshooting issues related to the newly implemented process.
- Successfully oversaw the well-designed implementation and management of a new phase for the team after being named Senior Processor.
- Provided training to team members for the project and managed the claims adjudication process, providing the client with any support they needed.
- Improved proficiency in Microsoft Excel and other office tools by creating and sharing reports with clients.
- I am able to streamline well-defined processes, improve team performance and increase specifications and customer satisfaction. My ability to troubleshoot issues and provide effective solutions has been invaluable to the team's success.
- By sharing my knowledge and experience, I was able to contribute to team members performing at their best, reviewing and improving product efficiency and accuracy. My commitment to ongoing training and development is a testament to their dedication to excellence.

Operations Associate

Solartis Technology Services Pvt Ltd, Chennai

Jun 2016 - Mar 2017

- Streamlined data binding processes in Mortgage field which needs to analyze, clear the data and send the data to the client.
- Worked collaboratively with a team to design, develop, implement and execute programs to ensure product quality assurance.

Projects

Expense Tracker

XPlore IT Corp, Coimbatore.

- Designed and developed an offline expense tracker using Tkinter and Sqlite3 using Python ensuring efficient expense management.
- It stores the data provided by the customer, which can be used to analyze spending and provides solutions for overspending.
