

# ANANYA K DAS

SOFTWARE DEVELOPER

## SUMMARY

Confident and enthusiastic fresher Python Django developer. Aspiring to be a part of dynamic and fast growing organisation having motivational working environment. Applying creative and analytical approach to operations for continous process improvement. Skilled at identifying or anticipating problems and providing solutions. Always eager to learn, an exceptional team player with good time management skills. Appreciate an oppurtunity to showcase my skills and make sure to give in my full potential and dedication to the job

## PROJECTS

### To Do App

**An application to mark down the list of works to be done .**

App is developed using Python. User can note down the list of all the works to be done on a day. Once the task is completed user can cut it down. Multiple users are possible.

### E-Learning Website

**To provide students and teachers a better learning and teaching experience**

Front end: html, css and js

Back end: Python Django core and MySQL

The website has a functional Login Registration and Homepage. Students can select their subjects and teachers can upload their topics which will be visible to the respective students. Admin can control all the functions taking place
