  MES COLLEGE OF ENGINEERING (October 2021 - June 2023)

- **BACHELOR OF COMPUTER APPLICATION**
  MES COLLEGE MARAMPALLY(June 2017 - March 2020)

- **PLUS TWO COMPUTER SCIENCE**
  SNMHS SCHOOL PARAPPANAGADI (June 2015 - March 2017)

SKILLS

Programming Languages
- C++
- C#
- Python
- Javascript

Frameworks
- React
- Django
- NextJS
- .NET

Databases
- MySQL
- MongoDB

Professional Skills
- Leadership
- Fast Adaptor

PROJECTS

Privacy-Preserving Semantic Search Over Encrypted Cloud Data
- **The system helps with sensitive data that needs to be encrypted to protect data privacy and combat   unsolicited accesses**
- **CSS Flask Bootstrap Mysql Used For Development**

PlantShop
- **This is a form of electronic commerce that allows consumers to buy goods over the internet using a web browser directly.**
- **React and Firebase are used for the development**
- **GitHub Link : github.com/lucidethinker/PlantShop**

ChatApp
- **Leveraged the power of React, a popular JavaScript library, to create a responsive and user-friendly front-end interface.**
- **Through the implementation of Redux as a stage manager efficiently managed the application's global state**
- **Utilized Node.js to build a robust and performant backend. With the integration of MongoDB, a NoSQL database,**
- **Designed a scalable data storage solution using MongoDBCluster, enabling efficient retrieval and manipulation of chat data**
- **GitHub Link : github.com/lucidethinker/chatApp**

CERTIFICATIONS

- **Crash Course on Python GOOGLE**   tinyurl.com/5c4bb7c8
- **Operating System   (IIT MADRAS)**   tinyurl.com/3w576vdw
- **Database Management System (IIT KHARAGPUR)**   tinyurl.com/5n6bderc
