## Projects

### Wishlist Product Price Comparison (Python-Django)    *1/2022 - 5/2022*

- https://github.com/Advaid-Sivadas/Wishlist-Product-Price-Comparison
- The purpose of the project is to compare the prices of profitable products that the user intends to purchase from various e-commerce websites. The user-selected product can be displayed in the wishlist and compare the product with the price and description. The selected product can be purchased with instant payment.

## Hospital Management (Python-Django)

- https://github.com/Advaid-Sivadas/hospitalmanagemet/
- your healthcare unit needs a hospital management system (HMS). The HMSs were geared towards keeping patient records and tracking inventories. Modern versions are more advanced, collecting and integrating volumes of clinical, operational HMS offers benefits for both hospitals and patients.

## Netflix (React)
