JAMSHAD T V

FRONT-END DEVELOPER

I am a developer motivated by utilizing my background in QA to achieve practical,precise solutions to technical problems. A front-end developer who has a big passion for mastering the craft of React js,JavaScript and Css. Spend significant time in chrome inspector than on actual websites. A determined individual having excellent communication skills. passionate about using my unique background along with my technical skills to create software that will impact the lives of end users. I will give my best to achive not only my goal ,but also for the pleasure and proud of company i am working.
