Cloud Computing(AWS)
Pargavan Cyyber Solution

ABOUT ME

I am looking forward to the opportunity in Cloud Computing (AWS), Data Analyst. I consider myself as a tech Geek and Passionate about new trends and Technologies. I love to work on challenging projects, with exposure to upcoming technologies or ripening roles towards better career.

EXPERIENCE

- **Cloud Computing (AWS)**

Hosting a static website using AWS services like (EC2,S3) . Create a bucket using S3 and upload a file. After that create keypair and security group for EC2 instance and then launch a instance.

- **Power BI Report**

Creating more insightful visualization in Power BI by using Excel and CSV as a data source. Worked in Power Query editor for data transformation process after ingesting the data from source.

EDUCATION

- **Sona College of Arts and Science 2020-2023**

B.Sc Computer Science
Percentage : 86

- **Sri gayathri Higher Secondary School 2018-2019**

HSC
Percentage : 77

- **Sri gayathri Higher Secondary School 2016-2017**

SSLC
Percentage : 90.1
