Education

LDRP Institute of Technology and Research **August 2018 – April 2022**
Bachelor of Engineering in Computer Engineering; CGPA: 8.42 *Gujarat, India*

Experience

VGD Technologies **January 2022 – March 2022**
Intern *Gujarat, India*
- Developed the backend for multiple applications using a variety of technologies, including Vanilla JS, Node.js, and Python.
- Worked on internal documentation for hyperledger fabric and docker, using React.js.
- Assisted in technical initiatives and client meetings to gather client requirements and document projects.

Tata Consultancy Service **April 2021 – April 2022**
Campus Ambassador *Gujarat, India*
- Launched and managed a social media campaign to engage students and raise awareness on TCS's many student initiatives, including CodeVita, the TCS National Qualifying Test, and TCS NextStep.
- Collaborated on several organization initiatives with the TCS outreach team increasing participation by 10%.

Projects

LedgerX | *Hyperledger Fabric, Android, Material UI, NodeJS, MySQL* **July 2021**
- Developed admin portal using enterprise-level design system - Material UI.
- Defined and designed UI layout for Android mobile application using XML.
- Assisted in writing Chaincode which was then deployed and used to manage the Hyperledger Fabric enterprise blockchain.

MedBaseNet | *Hyperledger Fabric, Android, Python, NodeJS, MySQL* **January 2021**
- Designed and developed a web-based Admin Portal using Python, HTML, CSS and JavaScript.
- Programmed back-end APIs using NodeJS and used Python framework, Flask, for frontend routing.
- Assisted in drafting high quality documentation and reports.

Leadership

Break The Barrier – Hackathon **January 2022 – August 2022**
Team Logistic *LDRP Institute of Technology and Research*
- Led a cross-functional team of 40+ team members, effectively managing and coordinating the efforts of diverse individuals with a range of skills and expertise.
- Conducted interviews and recruited 35+ team members and volunteers for the hackathon's management.
- Served as a liaison between upper management and various teams, successfully communicating updates, decisions, and feedback between levels of the organization.

Student Council **September 2019 – April 2022**
Logistic Head *LDRP Institute of Technology and Research*
- Oversaw a team of 9 individuals to accomplish goals that improve and promote communities, academics, and unity.
- Organized more than 15 events including technical workshops, interviews, and awareness programs establishing a conducive environment for student learning reaching 1600+ students.
- Demonstrated strong communication and interpersonal skills while collaborating with various stakeholders to plan and execute events on time.

Xenesis – Technical Fest **March 2020**
Student Coordinator *LDRP Institute of Technology and Research*
- Oversaw the effective management of a college festival with a budget of INR 250,000 and over 3000 participants.
- Coordinated with a number of colleges to ensure a smooth and efficient registration procedure for the technical festival.
- Managed the entire PR department, providing support and assistance to students and addressing their queries and concerns in a timely and efficient manner.

Skills

Programming: JavaScript, Python, Material-UI, Git, MySQL, C, HTML/CSS
Softwares: VS Code, Discord, Linux
Technologies/Frameworks: Node.js, React.js, Flask, GitHub, Hyperledger Fabric, Docker
Soft skills: Leadership, Community management, Time management, Cross-functional communication, Teamwork
