58%

SSLC – S S Hr Sec School, Arni
06/2015 - 04/2016
77%

PROJECTS

Video Conferencing–Python

This project aims to develop a video conferencing application using Python, which enables users to connect, communicate, and collaborate seamlessly over the internet. The application encompasses video and audio streaming, user-friendly graphical user interfaces, and efficient network communication.

Image Background Remover–Web development

The Image Background Remover project aims to develop a web-based tool that allows users to effortlessly remove backgrounds from images. This tool will provide a simple and intuitive interface for uploading images, applying background removal algorithms, and downloading or sharing the edited images.
