AJMAL ASHRAF
DATA ANALYST-PYTHON DEVELOPER

To Seeking an entry-level role that capitalizes on my expertise in Python, Pandas, machine learning, NumPy, Matplotlib, SQL, and Django web development. Eager to tackle complex data problems, derive actionable insights, and make data-driven decisions while also leveraging Django to contribute to the development of robust, user-centric web solutions. Committed to continuous learning and staying updated with the latest advancements in data science and web development. I am enthusiastic about joining a forward-thinking team that values innovation, collaboration, and continuous skill enhancement

Experience

Data Scientist intern
July 2023 - Sept 2023

SANDSLAB, Koratty Infopark, Thrissur

Projects

Chicago Divvy Bicycle Sharing Analysis

conducted a comprehensive analysis of Divvy bicycle sharing data to gain insights into the system usage patterns and improve its overall efficiency. Our analysis involved data preprocessing, feature engineering, and the development of predictive models. By implementing our recommendations and maintaining data-driven decision making, Divvy can continue to thrive as a reliable and sustainable transportation option for its users

Medicine Delivery Website

The project for developing and ensuring the medicine delivery services for urgently wanted customers by using python language. By this project the customer can check the availability of medicines without went out from their houses.

City360 Overall Website

The main objective of these project is to give provision for the user, can also demand the services for their own time and date. When we need the services of a skilled worker ,use city360 website to find verified task agents in our locality.

Professional Certification

- **NSDC certificate in Data analysis and Machine Learning in Data Analysis-Sands Lab (Kerala, India)**

- **Certified in Python programming Language from LCC Computer Education (Kerala, India)**

Skills

//Professional

- Data Analysis
- Data Manipulation
- Data Cleaning & Visualization
- Statistical Analysis
- Problem Solving
- Version Control
- Project Management
- Data Base Skill

//Technical

- Python - Django
- My SQL & Mongo DB
- HTML 5, CSS & Bootstrap
- Back-End Development
- Pandas, NumPy
- Matplotlib & Seaborn.
- Tableau
- Machine Learning
- Data Structure & Algorithms
