Skills

Technical Skills

Language :
- Python
- HTML ,CSS
- C,C++（Basic）

Database:
- MySQL
- Mysqlite3

Soft Skills
- Innovation and Creativity
- Decision making
- Team Management
- Planning

Tools:
- MS-office
- GitHub
- NumPy , Pandas
- Scikit-learn,Keras,TensorFlow

Frame work:
- Django
- Flask

Field of Interest

- Front end Developer
- Web Designing
- Python Fullstack Development

About Me

- A highly organized and hard-working individual seeking an entry-level position where I can refine my innovation skills and gain on-field job experience satisfying the organizational goals.

Education Background

- **Hindusthan College Of Engineering and Technology**
  Bachelor of Computer Science Engineering（B.E）
  CGPA - 8
  Completed in 2023

- **Jain University**
  Diploma Course - Python Fullstack Development and AI/ML

Projects

- **Portfolio Website**

  Developed a Portfolio Website using **HTML** and **CSS**

- **Student Login And Registration**

  Developed the form using HTML,CSS and collaborated with back-end to integrate the form with **Django** framework and **MySQL** database

- **Doctor Appointment Management System**

  Developed an application using **Tkinter** library for GUI, **SQLite3** as database and Object- Oriented Programming principles to structure the application

- **Speech Recognizer Assistant**

  Built a speech recognizer assistant which listens to as and provides relevant data

- **Handwritten Digit Classification**

  Digit Recognition by using **Tensorflow** build a neural network to classify images of handwritten digits

Certifications

- Certified from e-skillsIndia(Spreadsheets)
- Certified from Microsoft (Microsoft AI Fundamentals)
- Math Works (Image and Signal Processing Onramp)
- Cisco Processing Mining Fundamentals

Declaration

- I here by declare that the above given information is true to the best my knowledge and belief.
